NEW ENGLISH CHRYSANTHEMUMS

BE SURE TO READ—First we want to thank you for the lovely orders all of you from all over the country have sent us for these New English Chrysanthemums.

The English Chrysanthemums are still comparatively new here in the United States and we would appreciate it when you order more of these lovely Chrysanthemums if you will tell us how you like them. We wish to thank all of you that have written us telling us how well you do like them. I wish we had room to print all of these. We do wish to list one or two.

From Fort Collins, Colorado, "I will say that what we have seen of these English 'mums to date is the most exciting thing around this place in years. You know, after so long a time we growers get a little cynical about new super-doopers but these babies can easily be listed as super-colossal-doopers."

From Carlisle, Pa., "I and my garden friends are much pleased with your distinct strain of Hardy English Mums. They came thru the winter without protection."

These Chrysanthemums are all much earlier than most of the old Garden Chrysanthemums. They may be grown disbudded down to 8-12 buds and will be extra super. Pinch the center of the plant out when six or eight inches tall.

Prices are per each. Please mention a few second choice. Stock is scarce in many varieties. Also we try to include some extra gratis in our orders and if you don't list a few second choice we might duplicate something you already have.

Please Order Early. Ready About March 15th.

You will find Rose and Pink, Pink and Salmon, Salmon and Buff, Pink and Buff, Old Rose and Light Rose, Blue and White, Purple and Yellow, Purple and Rose, and many other combinations. In thousands of plants it is hard to find any two with coloring exactly alike. With us here they bloomed just right for Decoration Day. Hundreds of people came to see them while in bloom.
